Wellpartner Expands Contract Pharmacy Network Reach

Wellpartner (<https://www.wellpartner.com>), the industry-leading provider of 340B Drug Pricing Program and specialty pharmacy services, announced today that it can now provide access for covered entities to over 60,000 independent, regional and national chain pharmacies.

Wellpartner is committed to providing access to the 340B industry's largest networks of pharmacies, in order to meet the needs of covered entities, their patients and their local communities. Creating a contract pharmacy network that optimizes 340B program savings and patient access is the foundation of Wellpartner's 340B services. Wellpartner works closely with covered entities and contract pharmacies to optimize networks, avoiding the compliance and cost issues that result from overburdening a network with underperforming pharmacies. Wellpartner's commitment and efforts to seamlessly integrate with all of

the regional and national chain pharmacies' technology requirements, including those associated with inventory replenishment, are now completed.

"We are excited to be able to deliver customized contract pharmacy networks for our covered entity partners that are comprised of the widest mix of pharmacies," said James Love, CEO of Wellpartner. "While working with the various regional and national chain pharmacies on their inventory replenishment models was no small undertaking, we understood the important impact that our integration would have on our clients, their patients and their communities."

About Wellpartner

Wellpartner is a leading provider of 340B Drug Pricing Program services. We also offer provider and patient centric specialty pharmacy services via our URAC accredited pharmacies. Our services are finely tuned toward optimizing our clients' programs through; industry leading compliance, the unique ability to unlock specialty prescriptions from exclusive networks, access to over 60,000 pharmacies, and easy to implement data interfaces. Our goals align with our clients', as we work together to stretch scarce Federal resources as far as possible, reaching more eligible patients and providing more comprehensive services. Today, hundreds of covered entities, ranging from large disproportionate share hospitals to small clinics, trust Wellpartner to optimize their 340B programs and serve their patients.
