340B SMART

340B SMART gives Covered Entities the split-billing ability to track dispensing of all 340B medications to your eligible patients from all qualified sites, ensuring integrity and compliance of the 340B Program.

**Staying compliant
when it matters most**

As a pharmacy that participates in 340B, are you struggling with the ability to separate 340B from non-340B patient transactions?

For retail pharmacies with a desire to manage the 340B program while keeping costs down and staying compliant, Wellpartner has the solution that makes sense. You can now conquer these inventory replenishment and billing challenges with Wellpartner's 340B SMART service.

340B SMART gives covered entities the ability to track dispensing of all 340B medications to your qualified patients from all qualified sites, ensuring accurate and compliant processes and uncovering missed opportunities. The solution encompasses a 3-Way Split Purchasing System, that accumulates dispenses in WAC, GPO, and 340B while staying in compliance with 340B regulations.

340B SMART streamlines inventory and purchasing with a virtual inventory platform that maintains precise levels of 340B medications. You can eliminate manual procedures through seamless communication with your pharmacy profiling and hospital systems. Drug purchases are managed and directed to the correct wholesaler accounts ensuring program compliance.

Delivering consistent, industry-leading solutions is what we stand for in everything we do. Optimizing your 340B drug program is our number one priority. We will work with you to drive value when it matters most.

Wellpartner is your trusted partner.
Getting it right when it matters most.
