

wellpartner
COUNTER

Counter is Wellpartner's service for covered entities' in-house pharmacies, providing a fully compliant and customizable solution for both claims qualification and purchasing/inventory management.

Making it count when it matters most

As an in-house pharmacy are you struggling with the challenges and administrative complexities in navigating the 340B program?

A successful 340B contract pharmacy program has many moving parts. It requires a high level of expertise, in order to achieve effective administration and stay compliant with program rules. Ensuring that 340B drugs are used only for patients who meet specified eligibility requirements, especially in mixed-use environments; where both 340B eligible and ineligible patients are served can be challenging and administratively burdensome.

Wellpartner's Counter service will facilitate and manage inventory and replenishment in these complex environments. Counter can be configured with our strategic partners split billing software, integrated with existing custom or off-the-shelf split billing systems, and also be configured to integrate with drug wholesalers purchasing/inventory systems.

Delivering consistent, industry-leading results is what we stand for in everything we do. Optimizing your 340B drug program is our number one priority. We will work with you to drive value when it matters most.

Wellpartner is your trusted partner.

You can count on us when it matters most.

wellpartner
COUNTER

You can count on us with:

- ✓ Configuring and offering the best split billing solution in collaboration with our strategic partners.
- ✓ Interfacing to major wholesalers to support customized ordering processes.
- ✓ Providing full inventory management, replenishment and reconciliation.
- ✓ Enabling you to perform filtered and detailed analysis for complete Rx history, financial breakdowns and qualification details.

Your added value:

- ◆ Partnering with a trusted leader in 340B program management, with over a decade devoted to successfully serving covered entities.
- ◆ Achieving compliance with confidence by avoiding diversion, duplicate discounts and inappropriate claims classifications.
- ◆ Facilitating a full split-billing solution through strategic partnerships
- ◆ Dedicating an account management team to educate, support and provide ongoing guidance every step of the way.
